Digital Literacy Project Report

Student Details

Name: Souhini Roy

Branch: Integrated Mtech CSE(Cyber Security)

Year: 1st Year

Introduction

This project focuses on developing digital literacy skills including online safety, communication, and

responsible use of digital tools.

Task 1: Infographic

An infographic was created using Canva covering digital literacy basics, safe internet practices, and

professional presence.

Task 2: Digital Portfolio

Profiles were created on GitHub, LinkedIn, and Kaggle to build a professional online presence.

Task 3: Platforms

A coding problem was solved on HackerRank and a Google Form quiz was created to test digital

awareness.

Task 4: Email and Etiquette

Professional emails were written and a social media checklist was created to understand proper

communication.

Task 5: Cybercrime Awareness

A case study on UPI fraud and a prevention checklist were prepared to understand cyber threats.

Conclusion

This project improved my understanding of digital tools, online safety, and professional

communication.
